CRICAUTION — CRICKET AUCTION & LIVE SCORING

Team Owner Guide

Name your team, then buy a squad without running out of money.

Who this is for. The one person responsible for a franchise: naming it, and bidding for players on auction day.

What is in this guide

- 1 What you do
 - 2 Signing in
 - 3 Naming your team
 - 4 The name change deadline

 - 10 Advice for auction day
 - 11 Your password
 - 12 If something goes wrong
 - 13 Words you will see
 - 14 Getting help
-

1 What you do

You own exactly one team. Two jobs:

- 1 **Before the auction** — name your team, give it a short name and a colour.
- 2 **On auction day** — bid for players against the other owners, inside a fixed purse.

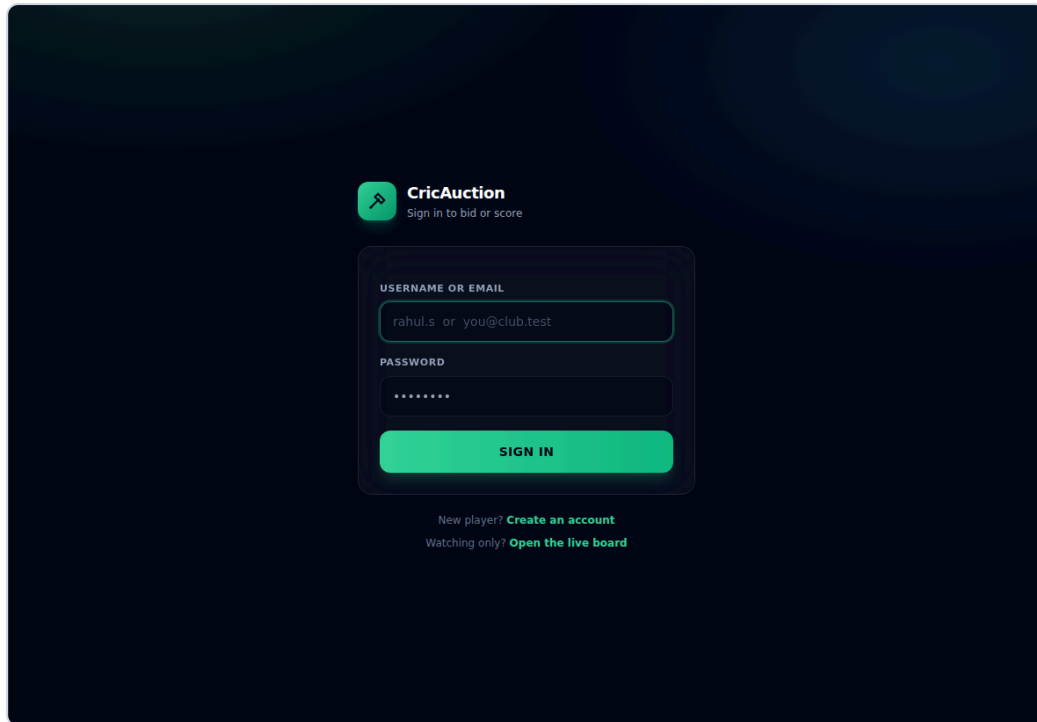

One team, one owner

A team has exactly one owner, and the application enforces it in the database rather than just on screen. You cannot bid for another team, and nobody else can bid for yours.

You may also be a player yourself. That is allowed but not required. If you want to be auctioned as well, apply to the tournament with the secret code like any other player and wait for the administrator to approve you — being an owner does not put you in the auction automatically, and does not stop you either.

2 Signing in

An administrator creates your account and your team, and tells you the credentials. Sign in with **your username or your email address** and your password.

The first box takes either a username or an email address.

If you are sent straight to a **Change password** screen, the password you were given was a temporary one. Replace it and you will be let through. See *Your password* near the end of this guide.

3 Naming your team

Your team appears under **My team**. An administrator creates it, often with a working name like “Team 1”, and you set the real one.

The screenshot shows the 'My team' page for a team named 'Highland Chargers' in the APL 2026 tournament. The page has a dark blue theme. At the top, there's a navigation bar with 'CricAuction', 'My details', 'My team' (highlighted), 'Join a tournament', 'Live auction', and user information 'Highland Chargers Owner TEAM OWNER Sign out'. Below the navigation bar, the team name 'Highland Chargers' is displayed with 'APL 2026' underneath. A message states: 'You can change the name until **18 Aug 2026**. After that only an administrator can.' The main form area contains four sections: 'TEAM NAME' with a text input field containing 'Highland Chargers'; 'SHORT NAME' with a text input field containing 'HC' and a note '2 to 6 letters or digits.'; 'TEAM COLOUR' with a color picker and the label 'optional'; and 'HOME GROUND' with a text input field containing 'Hill View Oval' and the label 'optional'. A green 'SAVE' button is at the bottom of the form. To the right of the form, there are two summary boxes. The 'PURSE' box shows '₹420.00 L' in green, with 'of ₹500.00 L remaining' and '4 players bought' below it. The 'SQUAD' box lists four players with their auction prices: Devan Patel (₹25.00 L), Nitin Bose (₹25.00 L), Rohan Kapoor (₹20.00 L), and Hemant Nair (₹10.00 L). At the bottom of the page, there's a footer that says 'CricAuction — auction and live scoring'.

My team. The line under the heading tells you how long you can keep changing the name.

Team name	Up to 100 characters. Must be unique within the tournament
Short name	2 to 6 letters or digits — the badge on the scoreboard, like MI or CSK
Team colour	Used as your accent on the auction board
Home ground	Optional

A name only has to be unique *within your tournament*. If a team in a different season used it, that is not a clash.

4 The name change deadline

You can rename your team as often as you like, right up to the tournament's **team name change deadline**. The screen states it plainly:

You can change the name until 10 September 2026. After that only an administrator can.

What the deadline is for

A team usually has to be named before anyone knows who is in it. The deadline exists so you can settle on a name *after* the auction, with the players you actually signed — and then it freezes, before fixtures and shirts are printed.

Once the deadline has passed, the name and short name are shown greyed out and the screen says so. The colour and home ground stay editable. If the name genuinely has to change after that, an administrator can still do it — ask.

MESSAGE	WHAT IT MEANS
Team names were locked on ...	The deadline has passed. Ask an administrator
Another team in this tournament is already called ...	Pick a different name
Another team is already using the short name ...	Pick different initials
The short name is 2 to 6 letters or digits	No spaces or punctuation — MI, CSK, BWB

5 Reading the auction screen

The screenshot shows the CricAuction interface during a live auction. At the top, the header includes the CricAuction logo, navigation tabs (Auction, Live Scoring, Fixtures, Squads), a red 'AUCTION LIVE' indicator, a 'Team Owner' dropdown, a 'PURSE ₹4.2 Cr' display, and a 'Sign out' button. The main content area is titled 'UNDER THE HAMMER' and 'LOT #37 · SET A'. It features a player profile for Jatin Verma (Wicket-keeper, India) with a base price of ₹15 L. Below the profile are statistics: MATCHES (53), RUNS (817), WICKETS (0), and SR (123.7). To the right, a 'CURRENT BID' section shows a bid of ₹25 L by Highland Chargers (HC) with a 1-second countdown timer and a note '3 bids · increment ₹5 L'. At the bottom, the 'PLACE YOUR BID' section shows four quick bid buttons (₹30 L, ₹35 L, ₹50 L, ₹75 L) and a 'PASS' button. A status bar indicates 'YOU'RE LEADING' and 'Slots left: 11'. A disclaimer at the very bottom states: 'Bids are validated server-side against **purse_remaining** and **max_squad_size** inside a SELECT ... FOR UPDATE transaction, so two owners clicking in the same millisecond can never both win the lot.'

The auction board during a live lot.

AREA	SHOWS
Under the hammer	The player being auctioned — role, base price, career record
Current bid	The standing bid, and which team holds it
Countdown	Seconds left. Green, then amber under 10, then red under 5
Place your bid	Four quick amounts, and the main bid button
Purse board	Every team's remaining money and squad size. Yours is outlined
Bid feed	The last few bids, newest first
Up next	The players coming after this one

Your remaining purse is in the header at all times. The board refreshes by itself every few seconds — you do not need to reload it.

6 Placing a bid

Press one of the quick amount buttons, or the main **Bid** button for the smallest legal raise. That is the whole action. There is nothing to confirm.

Every bid restarts the clock

Including yours. Nobody wins a lot by clicking last as the timer runs out — the countdown goes back to full on each accepted bid, so bidding ends when the room stops bidding, not when the clock happens to run out.

Bids move in fixed steps — the **increment** the administrator set for the tournament. You cannot bid an amount off that ladder, which keeps the bidding readable for everyone in the room.

7 Why a bid can be refused

A greyed-out button means the bid is already impossible. If a bid is refused after you press it, the message says exactly why.

MESSAGE	WHAT HAPPENED	WHAT TO DO
You already hold the highest bid	You are the leading bidder	Wait. Bidding against yourself only raises your own price
The bid must be at least ...	Below the next legal step	Use the amount shown
Bids must move in steps of ...	Off the increment ladder	Use one of the quick buttons
... can bid at most ...	The purse cannot cover it once the squad reserve is set aside	See the next section
... already has a full squad of ...	You have reached the maximum squad size	You are done buying
... has already signed ... overseas players	Overseas quota reached	You can still bid for domestic players
The hammer has already fallen on this lot	Too late	Wait for the next player
This lot is not open for bidding	The lot is paused or closed	Wait for the administrator

8 Why you cannot spend your whole purse

The application will not let you spend down to nothing. You still have to be able to field a legal squad afterwards, so it holds money back for the places you have not filled.

$$\text{most you can bid} = \text{purse remaining} - (\text{places still to fill} \times \text{cheapest player left})$$

A worked example. The minimum squad is 11. You have bought 6 players and have ₹20,00,000 left. The cheapest player still in the pool has a base price of ₹2,00,000.

Places still to fill after this one	$11 - (6 + 1) = 4$
Money that must be kept back	$4 \times ₹2,00,000 = ₹8,00,000$
Most you can bid right now	$₹20,00,000 - ₹8,00,000 = ₹12,00,000$

Bid ₹12,00,000 and it is accepted. Bid ₹12,50,000 and it is refused, and the message tells you the ceiling and how much is reserved.

It moves in your favour as the pool shrinks

The reserve is recalculated on every bid. As you fill places, fewer are left to reserve for — so your ceiling rises through the auction. Being refused early does not mean being refused later.

9 Your squad and your purse

My team shows what you have spent, what is left, and everyone you have bought with the price paid.

The purse board on the auction screen shows the same for every team, so you can see what your rivals can still afford. That is deliberate — it is an auction, not a sealed bid.

A sale cannot be undone

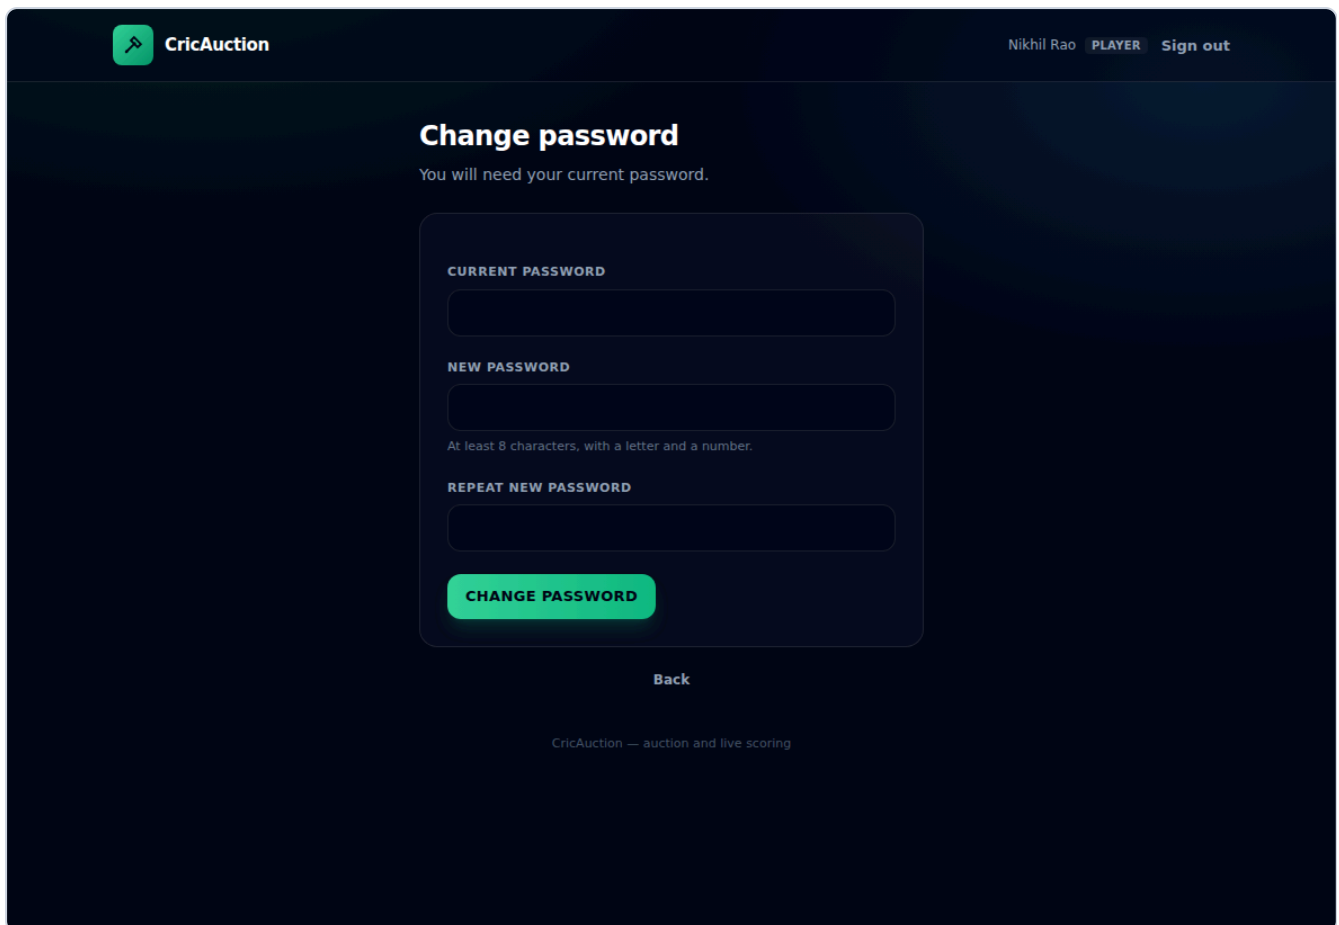

When the administrator presses **Sold**, the player joins your squad and the money leaves your purse in the same instant. There is no undo. If something has genuinely gone wrong, say so immediately — correcting it means an administrator editing the database.

10 Advice for auction day

- **Know your ceiling before your lot comes up.** The screen tells you the most you can bid; look at it before the bidding starts, not during.
- **Fill the cheap places early or late, but decide which.** Every unfilled place holds money back from your big bids.
- **Watch the other purses.** If a rival cannot afford the next step, the bidding is over whatever they say.
- **Use one device.** Two browser windows bidding for the same team will not break anything, but you will lose track.
- **The clock is not the enemy.** It restarts with every bid. Do not panic-bid because it is at three seconds.

11 Your password

Choose **Password** in the bar at the top of any screen you are signed in to. You will need your current password, and the new one needs at least eight characters with a letter and a number in it. It cannot be the same as the old one.

The change-password screen, reached from the top navigation.

If you are sent here the moment you sign in

That means the password you used was issued by an administrator. It is temporary. No other screen will open until you replace it with one only you know. Do that once and you will not see this again.

Forgotten it? There is no reset-by-email. Ask an administrator: they can issue a new password and read it out to you, and you will be asked to change it straight away.

12 If something goes wrong

WHAT YOU SEE	WHAT TO DO
"You do not own a team"	The administrator has not assigned one yet, or has just done it — click again
The board is not updating	It refreshes every few seconds; reload the page
Your purse looks wrong	Tell the administrator immediately, before the next lot
"Your session expired"	The page sat open too long. Sign in again
You cannot rename your team	The name change deadline has passed — ask an administrator
You are signed out unexpectedly	Your account may have been suspended. Ask the administrator

13 Words you will see

TERM	WHAT IT MEANS
Base price	The lowest a player can be bought for
Increment	The fixed step between bids
Lot	One player being auctioned
Purse	The money your team has to spend
Reserve	Purse held back so you can still complete a legal squad
Short name	Your 2–6 character badge, like MI or CSK
Squad cap	The most players one team may hold
Under the hammer	The player currently being bid for
Unsold	A lot that closed with no bid; the player can be re-listed

14 Getting help

Two different kinds of problem, and they go to different people.

KIND OF PROBLEM	WHO TO ASK
Your account, your details, approvals, tournament codes, deadlines	Your tournament administrator — they can change all of it
The application itself: a page that will not load, a wrong number, something broken	Deam Software Solutios, through your administrator

When reporting a fault, say what you were doing, what you expected, and what happened instead. A photograph of the screen is worth a paragraph.
